

Biomedical & Bioinformatics Research Internship and Training Experience (B-BRITE) at the Knight Cancer Institute

The **Biomedical & Bioinformatics Research Internship and Training Experience (B-BRITE)** aims to inspire curiosity in the next generation of research scientists by providing upper-level undergraduates hands-on research opportunities at the OHSU Knight Cancer Institute and an introduction to cancer research career paths.

B-BRITE OFFERS:

- Participation in a guided research project facilitated by an experienced researcher.
- Hands-on experience in cutting-edge biological and/or quantitative cancer research methods.
- An introduction to experimental design and data analysis.
- Experience developing and presenting a scientific research poster.
- Networking opportunities within a broad community of scientists.
- Stipend of \$4,500 for the full 8-week program.
- Limited need-based housing and travel support is available.

ELIGIBILITY:

We are looking for motivated upper-level undergraduates interested in careers in biomedical or data science research.

Students must be at least 18 years old at the start of the internship and available to participate for the duration of the internship. The expected commitment is 40 hours per week.

DATES:

B-BRITE is an 8-week summer program that runs from June 22 to August 14, 2026.

LOCATIONS:

Interns work in the Knight Cancer Institute Laboratories at the Oregon Health & Science University, Marquam Hill and South Waterfront campuses in Portland, OR.
