

Physical Therapy Aid/Scribe and PAID INTERN position:

FUTURE PHYSICAL THERAPIST/PHYSICAL THERAPIST ASSISTANT START HERE

- Develop professional mentorships as you work one-on-one with providers.
- Gain patient contact hours and letters of recommendation that will make your applications stand out.
- Work for a company that understands the med school application process and supports your healthcare goals.
- Receive extensive paid training that will help you master EMR systems and patient documentation procedures.

Summary of Position Description

The scribe/aid is a critical member of the patient care team. Medical scribes will work side-by-side with the physical therapist to document patient encounters in real-time. Medical scribe training is provided to all scribes to assure they are prepared to support their provider.

Duties of a Medical Scribe

- Perform chart preparation per clinic protocol
- Accompany the provider in all scheduled patient visits
- Document the patient history, physical exam, procedures, and patient plan, as performed by the provider
- Remind provider of relevant quality metrics when appropriate, documenting to support quality metrics
- Document and print instructions for the patient
- Review completed charts with the provider between patients or at the completion of shift
- Update provider preference and clinic preference documents as necessary

Education and Skills

- Excellent verbal and written English skills
- Bachelor's degree or degree in progress.
- High School diploma or equivalent required.
- **Healthcare track (e.g. pre-PT or PTA, pre-med, pre-PA, pre-nursing), is preferred**
- Strong computer skills with the ability to learn and navigate new software quickly
- Most assignments require a typing speed of at least 60 WPM

Availability

- 1+ days/week, Monday-Thursday
